| NURS264 (Reflection and Practice) | o NURS264 Objective 1: Identify the skills of reflection and analyse the development of these skills in health care practitioners.  
   - Objective 2: Apply the process of critical thinking to prevent errors in diagnostic reasoning.  
   - Objective 3: Gain an awareness of the difficult ethical issues involved in decision making.  
   - (Assessment): Journal - Maintaining a journal enables you to examine your thinking and will also clarify misconceptions…develop skills in reflective thinking through journal activities.  
| o 4763 (Nursing 2: Critical Thinking) | o 2000 | NURS264 Objective 2: Analyse lines of argument within the work of others.  
   - Objective 1: Develop, describe and analyse the essential components of an argument.  
   - (Assessment): Issue Paper - Demonstrate your ability to apply content on reasoning and develop an argument in relation to a specific health issue.  
| | | NURS264 Objective 3: Demonstrate skills in presenting logical arguments to others both verbally and in writing.  
   - Objective 1: Develop, describe and analyse the essential components of an argument.  
   - (Assessment): Issue Paper - Demonstrate your ability to apply content on reasoning and develop an argument in relation to a specific health issue.
